

Heavy Metal

A spectacular splashback tile provided the inspiration for this contemporary kitchen design

When seeking to create a special kitchen it's often easiest to choose one element within the space that will become the main feature and use it as the starting point for the design and that's exactly what happened with this stunning room.

Distinctive metal Argento pav rectified tiles were chosen from Select Solutions Tiles Bathrooms Kitchens for the unique splashback. The owner then based all her other selections for the kitchen on this dynamic tile with the Starlight Grey Quantum Quartz benchtops adding extra sparkle to the space. Combined with the Bouari gold high-gloss cabinets and matching brushed aluminium handles, the kitchen simply shines.

The glistening fixtures are illuminated by expertly positioned downlights and drop pendants. The resulting metallic sheen creates an expensive-looking kitchen that is sure to impress family and friends.

Boasting a host of shiny stainless-steel appliances and innovative storage options including a handy pull-out pantry, the kitchen not only looks good but is functional too. Equipped to serve the masses, the kitchen's design also incorporates laundry facilities within the area. Cleverly concealed in the layout, the laundry is definitely an added bonus to this spectacularly executed space.

Completely satisfied with the final product, the owners certainly agree that there's nothing secondary about this kitchen! **K&Q**
